

2N® Indoor Compact

Product Information and Description

The 2N® Indoor Compact is an indoor answering unit designed especially for the residential market. Installation by connecting a single UTP cable and configuration via a web interface guarantees that integrators can put the unit into operation quickly and easily. Users will be impressed by the minimalist design, tempered glass surface, 4.3" colour display, sound in HD quality and intuitive controls. A simply elegant solution for video communication.

Short Description

Answering unit with intuitive controls

Single most persuasive benefit

Intuitive controls, even for inexperienced users

Accepting calls, opening doors, displaying missed calls or switching to silent mode has never been easier. Large, colour backlit buttons help users get their bearings quickly and operate the unit easily.

Key Features

- Intuitive controls, even for inexperienced users
- Designer surface made of tempered glass
- Configuration via a web interface
- Switching between internal and external camera

Pricelist text

A 4.3" colour display, completely intuitive operation and advanced functions make the 2N® Indoor Compact the ideal product for any apartment building project.

Warranty

2N® Indoor Compact is covered by a 3-year warranty.
