

STI Emergency Light Cages

PRODUCT OVERVIEW

These cages are an excellent way to protect your emergency lights against both vandalism and accidental damage. Some of the newest members of the STI Wire Guard Range; these cages were created in response to multiple requests from STI customers. They are easy to install with all screws and anchors provided. Constructed of tough steel wire that is coated with corrosion resistant polyester. All are backed by a three year guarantee against breakage in normal use.

HOW IT WORKS

A simple 4 fixing point installation makes them easy to mount, and removal is simple for servicing the protected device. They are highly recommended for areas where abuse is severe or it is imperative emergency lights continue to operate.

KEY FEATURES

General Information

- Help to protect emergency lights from vandalism and misuse.
- Three year guarantee against breakage in normal use.

Design

- These steel cages are designed to protect essential emergency lighting from vandalism and misuse.
- Designed so there is no interference with the operation of the protected device.

Construction

- Constructed from plastic coated, heavy-duty galvanised steel rod.

Installation

- A simple 4 fixing point installation can retrofit over existing devices.
- Fast and easy installation.
- Simple removal for servicing of devices.

Options

- Where additional security is required, tamper resistant screws and matching bits are available.
