

PSU 12V24W 1.4Ah

POWER SUPPLY

High Quality Power:

PSU 12V24W 1.4Ah is robust power supplier equipped with electronic output protection against surge and short-circuit issues.

It is designed for DIN rails, making its installation easier, and includes a LED to have a better output control.

Standalone Power Supply

The PSU 12V24W 1.4Ah is more than a simple power supply. This model offers an instant power back-up in case of an electrical power-cut with an integrated LifePo4 1.4A battery. This integrated battery is clearly more reliable than a traditional external lead battery and will keep a constant 12VDC power even in the case of several deep discharges.

FEATURES

- DIN RAIL - Output: 1
- IN: 100-240 VAC
- Out: - Main: 13,8 VDC - 2A
- Batt.: 12,8VDC - 1,4 Ah
- Auto reset: Main after failure
- 2 years warranty - Except battery

SPECIFICATIONS

Version	DIN-RAIL (Electronic)
DIN rail or Wall mount	Yes
Voltage	Main: 13,8 VDC - Batt: 12,8 VDC
Power / Current	24W - 2A (Power on) - 1,4Ah (Battery)
Protection	Electronic Output protection, auto-reset
Output control	LED
Battery changer	Yes (LiFePo4)
Norms	CE 89/336/EEC, EN61000-3-2, EN61000-3-3, EN61000-6-4, EN50130-4, RoHS
