

KEYGUARD

FEATURES

- SNATCH OFF PLASTIC LID
- INTEGRAL ELECTRONIC ALARM
- CAN BE WIRED TO EXISTING FIRE OR SECURITY SYSTEMS

KEYGUARD

is a custom designed plastic box to which a clear plastic window can be fitted in order to retain a key or access control card. A recess enables the operator to remove the window in an emergency to retrieve the key. Immediately the lid is removed an integral electronic sounder warns others in the vicinity that key security has been breached. The lid is designed in such a way that it cannot be refitted after removal. Replacement lids are readily available from local stockists or direct from Hoyles. The battery can be tested periodically without damaging the lid.

ADVANTAGES

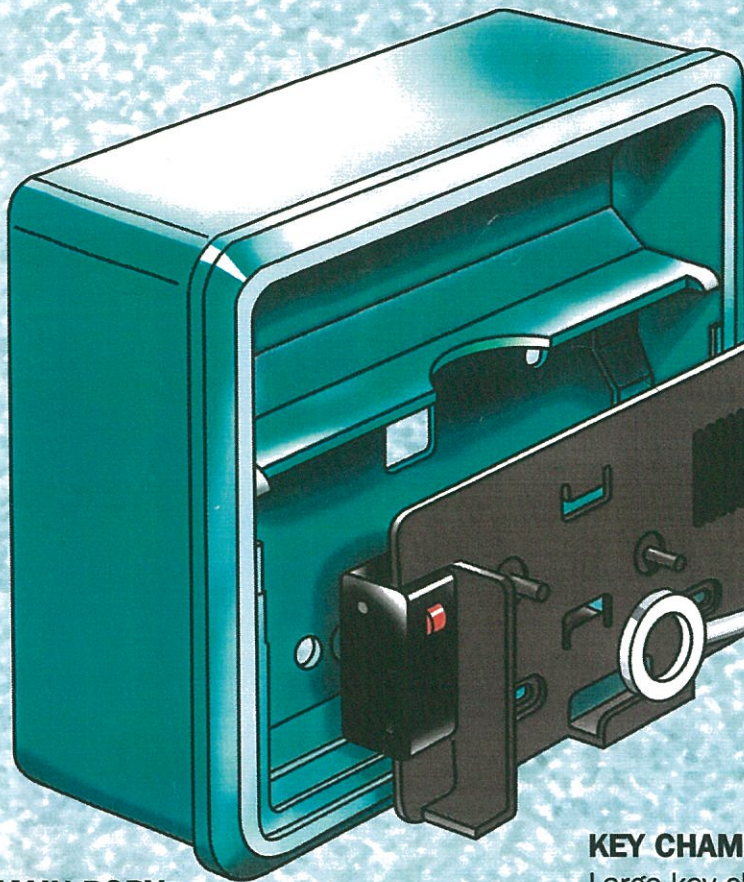

- SPECIALLY DESIGNED NON HAZARDOUS PLASTIC LID.
- SOUNDER ALERT BEFORE KEY IS REMOVED.

USES

- FIRE EXIT DOORS
- FILING CABINET KEYS
- COMPUTER ROOMS
- ACCESS CONTROL SYSTEMS
- MASTER KEYS FOR COMPUTERS ETC.
- RESTRICTED ACCESS AREAS

MAIN BODY

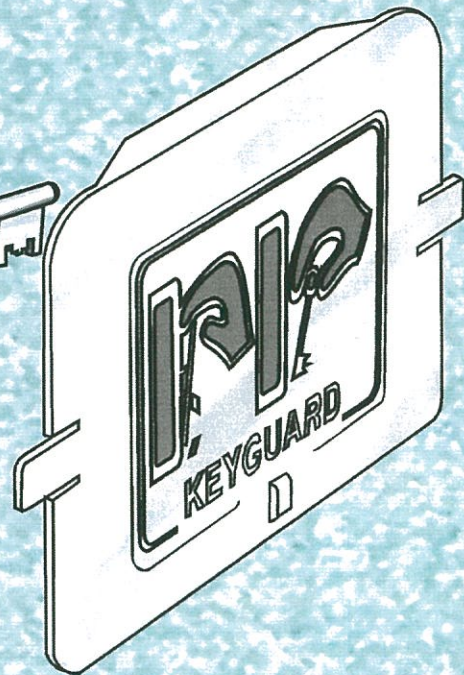

Architecturally designed main body in a tough resilient composite.

KEY PLATE

Key Plate conceals microswitch, battery (PP3 or equivalent) and electronic sounder..

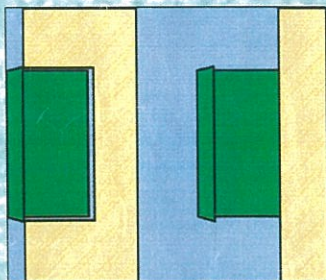

CLEAR WINDOW

Clear plastic window enables key to be easily seen and cannot cause injury when removed. Safe in food preparation areas.

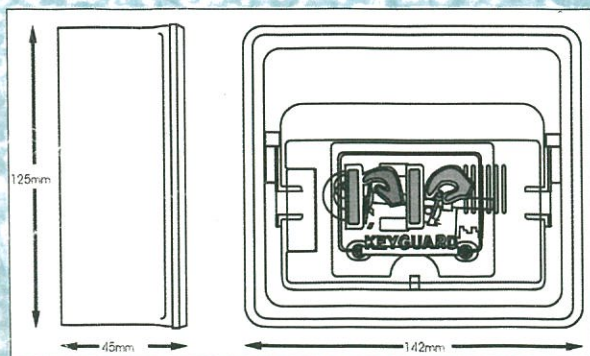

KEY CHAMBER

Large key chamber will accept most commonly available keys and standard cards for card access control systems.

INSTALLATION

The main body is a one piece moulding therefore flush fitting is simple to achieve.

The Keyguard is available in three different versions to satisfy various requirements
