

unum-X ST - DT universal

KSI5101001.300 unum-X ST - Grade 2

KSI5102001.300 unum-X DT X5 - Grade 2

KSI5102001.301 unum-X DT X8 - Grade 2

Rilevatore di movimento per interni (filare) Guida installazione
Indoor Motion detector (wired) Installation guide
Detecteur de mouvement intérieur (filaire) Guide d'installation

INTRODUZIONE - INTRODUCTION - INTRODUCTION

I rilevatori di movimento universali **unum-X ST** con rilevamento PIR e **unum-X DT X5/X8** a doppia tecnologia PIR e a microonde, sono rilevatori professionali che garantiscono il più alto grado di affidabilità, senza incorrere in falsi allarmi; implementano la tecnologia **Tough Mod2 TM**, in oro placcato, che offre una resistenza maggiore al caldo e all'umidità e prolunga la durata del rilevatore. La lente di tipo sferico è ruotabile di 180° dando la possibilità di ottenere un'area di rilevamento di tipo stretto ("narrow") per proteggere pareti, finestre, corridoi, ecc., contrapposto all'area di rilevamento, di base, di tipo ampio ("wide"). Si collega alla lares 4.0 utilizzando un qualunque morsetto di ingresso delle periferiche di espansione.

unum-X ST universal indoor motion detectors with PIR and **unum-X DT X5/X8** dual technology with PIR and microwave detection, are professional detectors that guarantee the highest degree of reliability, without incurring any false alarms; they implement **Tough Mod2 TM** technology, in gold plated, which offers high resistance to heat and humidity and extends the life of the detector. The spherical lens can be rotated 180° degrees to obtain a narrow type of detection area, useful to protect walls, windows, corridors, etc., opposed to the default wide type of detection area. Connection to the lares 4.0 Ksenia control panel is realized through any input terminal of the expansion peripherals.

Les détecteurs de mouvement intérieurs universels **unum-X ST** avec détection PIR et **unum-X DT X5/X8** à double technologie avec détection PIR et micro-ondes, sont des détecteurs professionnels qui garantissent le plus haut degré de fiabilité, sans provoquer de fausses alarmes; ils implémentent la technologie **Tough Mod2 TM**, en plaqué or, qui offre une haute résistance à la chaleur et à l'humidité et prolonge la vie du détecteur. La lentille sphérique peut être tournée de 180° degrés pour obtenir un type de zone de détection étroite, utile pour protéger les murs, les fenêtres, les couloirs, etc., par opposition au type de zone, par défaut, de détection large. La connexion à la centrale lares 4.0 Ksenia est réalisée via n'importe quelle borne d'entrée des périphériques d'extension.

DICHIARAZIONE DEL PRODUTTORE - MANUFACTURER'S STATEMENT - DÉCLARATION DU FABRICANT

SPECIFICHE TECNICHE - TECHNICAL SPECIFICATIONS - SPÉCIFICATIONS TECHNIQUES

	KSI5101001.300	KSI5102001.300 (X5) - KSI5102001.301 (X8)
Ingresso alimentazione / Power input / Entrée de puissance	9.5 - 16 VDC	
Assorbimento / Consumption / Consommation	8 mA (normal) / 11 mA (max.) at 12 VDC	11 mA (normal) / 14 mA (max.) at 12 VDC
Uscita a relè / Relay output / Sortie à relais	Allarme / Alarm / Alarme N.C. 24 VDC 0.1 A max. Sabotaggio coperchio / Cover tamper / Sabotage couverture N.C. 24 VDC 0.1 A max.	
LED remoto / Remote LED / Led à distance	---	Terminale aperto/Open terminal/Borne ouverte = OFF / 0V = ON
Metodo di rilevamento / Detection method / Méthode de détection	Passive infrared	Passive infrared and Microwave
Sensibilità PIR / PIR sensitivity / Sensibilité PIR	1.6°C at 0.6 m/s (a 2.4 m di altezza / at 2.4 m mounting height / à 2.04 m d'hauteur)	
Lente ruotabile / Rotating lens / Lentille rotative	Fresnel - Ruotare per copertura ampia o stretta / Rotate for coverage Wide or Narrow / tourner pour couverture large ou étroite	
Copertura / Coverage / Couverture	Ampia/ Wide/ Large: 12 m 85° - Stretta/ Narrow/ Étroite: 18 m 5° (MW disabilitata con lente stretta / No detection MW with Narrow lens / MW disabled avec lentille étroite)	
Zone rilevabili / Detection zones / Zones de détection	Ampia/ Wide/ Large: 76 zones - Stretta/ Narrow/ Étroite: 12 zones	
Altezza installazione / Mounting height / Hauteur de montage	da 2 a 3 m / from 2 to 3 m / de 2 à 3 m (2.4 m raccomandato / recommended / conseillé)	
Velocità rilevamento / Detection speed / Vitesse de détection	0.3 - 2.0 m/sec	
Durata riscaldamento / Warm-up period / Période d'échauffement	60 s (LED lampeggia / blinks / clignote)	
Frequenza microwave / MW frequency / Fréquences micro-ondes	---	X5:10.525 GHz X8:10.587 GHz
Pet immunity	✓	
Indicatore LED / LED indicator / Indicateur LED	verde: a riposo OFF-Allarme/sabotaggio ON/ green: stand-by OFF-Alarm/tamper ON/ verte: stand-by OFF-Alarm/sabotage ON	
Temperatura operativa / Operating temperature / Température	-10°C +40°C	
Compensazione temperatura / Temperature compensation	Digital (SMDA)	
Umidità / Environmental Humidity / Humidité	95% max	
Dimensioni / Dimensions / Dimensions	129.2 x 61.5 x 50.9 mm (HxWxD)	
Peso / Weight / Poids	90 g	105 g
Montaggio / Mounting / Montage	Interno: muro, angolo (con supporto: muro, soffitto) / Indoor: wall, corner (with brackets: wall, ceiling) / Intérieur: mur, angle (avec support: mur, plafond)	

PARTI IDENTIFICATIVE - IDENTIFICATION PARTS - IDENTIFICATION DES PIÈCES

- 1** Sbloccare e sollevare il coperchio
Unlock and open the cover
Déverrouiller et ouvrir le couvercle

- 2** Rimuovere l'unità principale dal basso
Remove the main unit from the bottom
Retirer l'unité principale par le bas

Allargare la levetta sporgente
Enlarge the protruding clip
Élargir le clip saillant

Non toccare le unità PIR e MW
Do not touch PIR and MW units
Ne touchez pas les unités PIR et MW

- 3** Rimuovere il preforato utilizzando un cacciavite
Break the knockouts with a screwdriver
Casser les pré-percés avec tournevis

- ① fori per montaggio a muro
② fori per montaggio ad angolo
(selezionare 2 dei 3 su ciascun lato)

- ① wall mounting holes
② corner mounting holes
(select 2 of the 3 on each side)

- ① trous pour montage au mur
② trous pour montage en angle
(sélectionner 2 des 3 de chaque côté)

NOTE

Le viti di montaggio non sono incluse. Φ Si consigliano viti da 3 mm.
Mounting screws are not included. Φ 3 mm screws are recommended.
Les vis de montage ne sont pas incluses. Des vis de Φ 3 mm sont recommandées.

- 4** Cablaggio / Wiring cables / Câblage

Cablaggio di superficie in alto
Upper surface wiring
Câblage en saillie en haut

Cablaggio nascosto
Hidden wiring
Câblage caché

Cablaggio di superficie in basso
Lower surface wiring
Câblage en saillie en bas

Cablaggio dall'alto
Upper wiring
Câblage d'en haut

Cablaggio dal basso
Lower wiring
Câblage du bas

Cablaggio nascosto
Hidden wiring
Câblage caché

- 5** Fissare la base al muro - Mount the base to the wall - Monter la base au mur

Montaggio a muro
Wall mount
Montage au mur

Montaggio in angolo
Corner mount
Montage en angle

- 6** Fissare l'unità principale alla base
Attach the main unit to the base
Fixez l'unité principale à la base

- [1] [2] Agganciare la parte superiore del PCB alle sporgenze su entrambi i lati
Hook the top of the PCB on the protrusions on both sides

Accrochez le haut du PCB sur les protubérances des deux côtés

- [3] Spingere la parte inferiore del PCB superando la clip sporgente
Push the bottom of the PCB over the protruding clip

Poussez le bas du PCB au-delà du clip en saillant

- 7 Cablaggio Terminali Allarme + Sabotaggio alla lares 4.0
Connection Terminals Alarm + Tamper to lares 4.0
Connexion borniers Alarme + Sabotage à la lares 4.0

Lunghezza cavo di alimentazione
Power cable length
Longueur du câble d'alimentation

WIRE GAUGE	12 V DC	14 V DC
AWG 22 (0.33 mm ²)	520 m (1,710 ft.)	1,130 m (3,718 ft.)
AWG 20 (0.52 mm ²)	820 m (2,690 ft.)	1,790 m (5,870 ft.)
AWG 18 (0.83 mm ²)	1,320 m (4,330 ft.)	2,850 m (9,350 ft.)

WIRE GAUGE	12 V DC	14 V DC
AWG 22 (0.33 mm ²)	270 m (890 ft.)	590 m (1,940 ft.)
AWG 20 (0.52 mm ²)	430 m (1,410 ft.)	940 m (3,080 ft.)
AWG 18 (0.83 mm ²)	690 m (2,260 ft.)	1,490 m (4,890 ft.)

IMPOSTAZIONI PONTICELLI - JUMPER PIN SETTINGS - RÉGLAGES DES CAVALIER DE COURT-CIRCUITAGE

Le illustrazioni mostrano la posizione predefinita - Illustrations show the default position - Les illustrations montrent la position par défaut.

1 LED ON OFF

ON: Sempre ON (default)
Always ON
Toujours ON

OFF: Può essere controllato dal morsetto LED remoto
It can be controlled through the remote LED terminale
Il peut être contrôlé par le terminal LED à distance.
[Open : OFF 0V: ON]

2 PIR SENSIBILITY L M H

H: Alta / High / Haute (default)
M: Media / Middle / Moyenne
L: Bassa / Low / Faible (Modalità di immunità agli animali domestici / Pet immunity mode / Mode d'immunité aux animaux de compagnie)

*note: PET immunity mode: Not certified to EN, INCERT and SBSC

3 LENS W N

W: Wide (default)
N: *Narrow

*note: Narrow setting is not certified to the following standard:
EN 50131-2-2/EN 50131-2-4, INCERT and SBSC

4 MICROWAVE SENSITIVITY (for unum-X DT only)

SHORT - LONG

Long (default)

IMPOSTARE AREA DI RILEVAMENTO - DETECTION AREA SETTING - RÉGLER LA ZONE DE DÉTECTION

1 Rimuovere la lente Remove the lens Retirer la lentille

Superare il fermo e tirare verso l'alto la lente
Get over the rib, then pull up the lens
Passez la nervure et tirez la lentille vers le haut

E' possibile aiutarsi con un cacciavite piatto
If it is difficult to get over, use a flat head screwdriver
Il est possible d'utiliser un tournevis plat

Caution Attenzione a non danneggiare la lente con il cacciavite
Be careful not to damage the lens with a screwdriver
Attention à ne pas endommager la lentille avec le tournevis

2 Ruotare ed impostare la lente su "Wide" o "Narrow" Set the lens to "Wide" or "Narrow" Régler la lentille sur "Wide" or "Narrow"

WIDE Default

NOTE

Installare la lente in modo che le lettere in rilievo nel coperchio e quelle nella lente coincidano
Install the lens so that the letters on the cover and on the lens match
Installez la lentille de sorte que les lettres sur le couvercle et sur la lentille coïncident

NARROW

3 Riposizionare la lente Install the lens Installer la lentille

Spingere saldamente la lente in 3 punti in ordine numerico.
Push the lens firmly at 3 points in numerical order
Poussez fermement la lentille en 3 points dans l'ordre numérique.

- 1** Verificare che il pin del LED sia "ON", quindi chiudere il coperchio.
Confirm that the LED pin is "ON", then close the cover.
Vérifiez que le contact de la LED est "ON", puis fermez le couvercle.

- 2** Camminare nell'area di rilevamento per verificare le prestazioni di rilevamento tramite l'indicazione del LED.
Walk in the detection area to check the detecting performance via LED indication.
Marchez dans la zone de détection pour vérifier les performances de détection via l'indication LED.

- 3** Riportare il pin del LED su "OFF" dopo il walk test, se necessario.
Return the LED pin to "OFF" after the walk test, if necessary.
Remettez le contact de la LED sur "OFF" après le test de marche, si nécessaire.

- 4** Chiudere il coperchio / Lock the cover / Verrouillez le couvercle

NOTE

Effettuare un test di rilevamento almeno una volta all'anno.
Conduct a walk test at least once a year.
Effectuez un test de détection au moins une fois par an.

DIAGRAMMA DI COPERTURA - DETECTION AREA - ZONE DE DÉTECTION

Wide - Top view / Vista dall'alto / Vue de dessus

Wide - Side view / Vista laterale / Vue de côté

Narrow - Top view / Vista dall'alto / Vue de dessus

Narrow - Side view / Vista laterale / Vue de côté
