Part Code: J81   Security Grade 3   Environmental Class 2   Manufactured to EN50131

With Lid Tamper   CE

Protected against outside attack. TACT switch used to show broken circuit.

Connect your alarm circuit wires to the terminals marked Tamper. This will create the circuit. Once the lid is removed the circuit will be broken.

The operational access gap is 3mm.

Ensure the casework green labels line up.

Ensure all cables are secure and cannot short out to other connections or components.
