

# RC 4

## Relay card

### Technical data

Relay output	2 x NC/NO
Supply voltage	11-30 VDC or AC
Current consumption	16 mA at 12 VDC / 20 mA at 30 VDC
Contact rating	30 VDC / 2 A / 60 VA
Connection	Screw terminals with self-lifting clamp
Operating temperature range	-20 to +50°C
Dimensions (L x W x H) mm	50 x 26.5 x 16

The RC 4 is a compact and universal relay card for AC or DC supply with dual alternating (NC / NO) relay function 2A. Connection is provided via screw terminal with self-lifting clamp.

Transistor control of the relay means a very low control signal is required (1 mA, 12V). The card has a high impedance input for controlling the relay. An activated relay is indicated via a LED.

Supplied with self-adhesive pad for easy installation.
